

## The King Of Riesling the one and only Keller

Few would contest that the wines of Keller are truly exceptional. Klaus Peter and his wife Julia took the reins of the family estate in 2001, inheriting scores of old vines on some of the Rheinhessen's most majestically positioned, limestone-threaded hillsides. Over the last 30 years, they have become a beacon in Germany and beyond. These wines have inspired a generation. Simply put, they emit light.

Catnip for collectors and coveted by the curious, Keller wines have become impossible to access, even at the 'entry level.' Because the German wine conversation simply cannot be had in elision of this estate, we've pulled some treasures from our cellar to share with you. Don't miss this chance to taste the work of *THE* master.

It's orange wine that exists on it's own wavelength, on it's own planet. It's like if you opened a pack of big red chewing gum but it was filled with strawberries and toasted orange peels.
